

 **KOTA TAPES** (INDIA) PVT. LTD

Welcome to THE KOTA GROUP OF COMPANIES

Established in the year 1988, KOTA group has been trusted by customers for its wide variety of integrated BUILDING MATERIAL PRODUCTS. We supply our products to almost all the states of India.

We have developed our products through intensive research work and comprehensive understanding about the market dynamics. Thus our products are advanced and offer complete satisfaction to the user

KOTA CEMENT INDUSTRIES

With over 20 years of experience, commitment, and ability to innovate for our customers and to offer reliable products, we have set ourselves apart and established our leadership in the “SHELTER” brand CONSTRUCTION CHEMICALS and “SEAL TITE” brand LIQUID SEALENTS

KOTA INDUSTRIAL PRODUCTS PVT. LTD.

We are one of the superior companies in the field of manufacturing PTFE THREAD SEAL TAPE AND PTFE GLAND PACKING with many famous brands in the Indian market like:

WHITE GOLD TOPAZ SEALTITE RUBI COMET COMMANDER

Due to their excellent insulation at high and low temperatures and acid & alkali-resistant features, our Teflon tapes are widely used in sealing applications for civil-construction, machinery, chemicals and space navigation.

After years of exploration and development, our production scale, technical level and product quality has evolved .Building on the motto, “Quality is life”, our products have a good reputation in the Indian market. We are also approved suppliers to many Indian government bodies.

KOTA TAPES (India)PVT. LTD.

It gives us great pride to introduce ourselves as the first manufacturer and exporter of a wide range of tapes; self adhesive tapes, pressure sensitive tapes and customized tapes in India.

The Company is equipped with a set of advanced coating production line and has a professional laboratory and testing equipments to ensure high quality products.

These tapes are utilized for both critical and non-critical applications such as painting, preserving and packaging, bundling and general purpose applications. The combination of natural colour based crepe paper and the innovative, consistent adhesives, provide the right masking solution. Based on the required temperature resistance, the Company offers a wide range of tapes to select from for the fine line in paint booth section of the automobile sector.

Our Aim

We have an aim to reach the acme of perfection by manufacturing, exporting and supplying products which are innovative as well as adhering to the international standards of quality. One of our organizational goals is to further our presence in the global markets and increase our export revenues..

Quality

Quality takes a priority position in all our organizational activities. We take extreme care to ensure that all our products are of superior quality. We get our raw materials only from reliable sources that have been marked on the quality standards. These materials are tested in state-of-the-art laboratories. We further check each finished product for perfection on the parameters of functionality and design. Our team of quality experts ascertains that none of the products that leave our premises bear any type of defect or imperfection.

Infrastructure

A well - equipped manufacturing unit and experienced machine operators form the backbone of our company's manufacturing facilities, which are equipped with all essential and modernized machinery that enables our engineers to execute their job in a sophisticated manner.

We have separate Quality and R&D departments, headed by technical experts who have been associated with this industry for years.

Competent Manpower

We possess a team of experts who are sourcing products of international standards to keep abreast with the global markets. Our skilful technicians handle specific functions to ensure maximum productivity and cost efficiency.

Adept at utilizing the raw materials, our team of workforce puts in hard work and implements innovative ideas to come up with a range of products which suit the needs of the clients.

Toluene-recycling Equipment

High-speed Coating Equipment

SUPREMO Masking Tape is a general purpose masking tape for packaging, holding, bundling, sealing, general paint masking and a vast number of other jobs that require a pressure sensitive tape. SUPREMO Masking Tapes with crepe paper are suitable as backing for application during paint masking. The tape is highly conformable, easy on curved surfaces and can be removed without leaving any residue.

Product Code : KTP 925

Technical Details

Backing	Crepe paper
Adhesive Type	Rubber
Color	Beige/light yellow
Thickness	0.15mm ± 0.5mm
Tensile Strength (N/In)	70 ± 3
Elongation (%)	9.5 ± 0.5
Temperature Resistance	75° C ± 5° C

Features

- Rubber adhesive for instant adhesion that sticks easily and without effort.
- Good holding power to help resist lifting or curling.
- Crepe paper backing that is conformable to maintain integrity when formed around a corner.
- Easy tear and sliver resistant
- Good paint hold-out that resists bleed-through.
- Special backside treatment that controls unwind and helps reduce waste.

Usage

- For Holding, Bundling And Sealing.
- For Color Separation & Painting On Pin Stripes.
- For Non-critical Masking.
- For Painting & Spraying.
- In Paint Bake Operation
- In Decorative Industries
- In Electric Industries
- In Shoe Industries
- In Light Duty Packaging

Packing Size

Available in 1/2 inch, 3/4 inch, 1 inch and 2 inch sizes. We can also supply as per customers' requirements.

JUMBO ROLLS PACKING

Jumbo rolls in the following sizes are also available.

Product Code	Sizes
KTP-934	990mm x 1500 mtrs.
	990mm x 1800 mtrs.
	1250mm x 1400 mtrs
	1250mm x 1500 mtrs

Product use

All statements and technical information contained in this document are based upon tests conducted under laboratory conditions. However, certain factors beyond control can affect the use and performance of a product in a particular application, including the conditions under which the product is used and the time & environmental conditions in which the product is expected to perform. Since these factors are uniquely within the user's knowledge and control, it is essential that the user evaluate the product to determine whether it is fit for a particular purpose and suitable for the user's method of application.
